Hellebore Leaf Study by U.S. Air Force Veteran John Smelser,
2013 National Veterans Creative Arts Festival (see inside cover).

- vii Letters to the Editor
- xi Guest Editorial: Training model for promoting translation from research to clinical settings: University of Alabama at Birmingham training for constraint-induced movement therapy
- xix JRRD At a Glance
- Scientific/Technical Articles
- 175 Effect of oculomotor rehabilitation on accommodative responsivity in mild traumatic brain injury
- 193 Influence of physical capacities of males with transtibial amputation on gait adjustments on sloped surfaces
- 201 How do walking, standing, and resting influence transtibial amputee residual limb fluid volume?
- 213 Increased reward in ankle robotics training enhances motor control and cortical efficiency in stroke
- 229 Sensor-based hip control with hybrid neuroprosthesis for walking in paraplegia
- 245 Complex muscle vibration patterns to induce gait-like lower-limb movements: Proof of concept
- 253 Comparison of body-powered voluntary opening and voluntary closing prehensor for activities of daily life
