**CONTENTS**

- ii Guidelines for Contributors
- iii Masthead Page
- iv Editor's Notes  
*Tamara T. Sowell*
- vii Editorial: Burgess Senate Resolution
- xvii Clinical Relevance for the Veteran: Summaries of Scientific/Technical Articles

---

**Scientific/Technical Articles**

---

*Prosthetics/Amputations/Orthotics/Orthopedics*

- 383** A device for applying static loads to prosthetic limbs of transtibial amputees during spiral CT examinations  
*Mark T. Madsen, PhD; John Haller, PhD; Paul K. Commean, BEE; Michael W. Vannier, MD*
- 389** Heterotopic ossification in rehabilitation patients who have had internal fixation of an acetabular fracture  
*Steven J. Schafer, MD; Laura Ottaviani Schafer, MD; Jeffery O. Anglen, MD; Martin Childers, MD*
- 395** Assessment of spinal movement reduction by thoraco-lumbar-sacral orthoses  
*Peter JCM van Leeuwen, MD; Renate PMJ Bos, Msc; Jose CM Derksen, Msc; Jaap de Vries, PhD, MD*
- 405** Experimental and numerical predictions of the ultimate strength of a low cost composite transtibial prosthesis  
*Jill Hahl, MS and Minoru Taya, PhD*

*Spinal Cord Injury and Other Neurological Disorders*

- 415** Equipment specifications for supported treadmill ambulation training  
*Michael S. Wilson, MS; Huma Qureshy, MS; Elizabeth J. Protas, PhD; S. Ann Holmes, MD; Thomas A. Krouskop, PhD; Arthur M. Sherwood, PhD*
- 423** Electromyographic and kinematic analysis of the shoulder during four activities of daily living in men with C6 tetraplegia  
*JoAnne K. Gronley, DPT; Craig J. Newsam, MPT; Sara J. Mulroy, PhD, PT; Sreesha S. Rao, MS; Jacquelin Perry, MD, DSc; Melvin Helm, MD*
- 433** A compound sensor for biomechanical analyses of buttock soft tissue in vivo  
*Jue Wang, MS; David M. Brienza, PhD; Ying-wei Yuan, PhD; Patricia Karg, MS; Qiang Xue, PhD*

- 445 Quantifying ataxia: ideal trajectory analysis – a technical note  
*Michael D. McPartland, PhD; David E. Krebs, PhD, PT; Conrad Wall, III, PhD*
- 455 The effectiveness of neurological rehabilitation in multiple sclerosis  
*Alan J. Thompson, MD, FPCP, FRCPI*
- 463 Microstructural and mechanical characterization of human tissue at and adjacent to pressure ulcers  
*Laura E. Edsberg, PhD; Renee Cutway, PT; Shirley Anain, MD; Joseph R. Natiella, DDS*

*Communications*

- 473 Fitting hearing aids with the articulation index: impact on hearing aid effectiveness  
*Pamela E. Souza, PhD; Bevan Yueh, MD; Margaret Sarubbi, MD; Carl F. Loovis, PhD*

---

**Clinical Reports**

---

- 483 The Structure and structural effects of VA rehabilitation bedservice care for stroke  
*Dean M. Reker, PhD, RN; Helen Hoenig, MD; Michael Z. Zolkewitz, BS;  
Richard Sloane, MS; Ronnie D. Horner, PhD; Byron B. Hamilton, MD, PhD;  
Pamela W. Duncan, PhD, PT*
- 493 Errata
