VETERANS ADMINISTRATION · WASHINGTON, D.C.**

Bulletin of Prosthetics Research

PROSTHETIC AND
SENSORY AIDS
SERVICE

DEPARTMENT OF MEDICINE AND SURGERY
VETERANS ADMINISTRATION • WASHINGTON, D.C.

A NOTE FROM THE EDITORS

This present issue of the Bulletin of Prosthetics Research is the fourth one published by the Prosthetic and Sensory Aids Service, hence its designation BPR 10-4. (The "10" indicates that the Bulletin is a Department of Medicine and Surgery publication.)

As our readers know, the Bulletin of Prosthetics Research, beginning with the BPR 10-3 Spring 1965 issue, became available for purchase from the Superintendent of Documents. This step was necessary because we had to restrict the number of complimentary copies we could distribute. Making the Bulletin available for purchase has had the decided advantage of reaching many interested people and organizations who normally would not be able to receive copies because of our necessarily limited free distribution policy.

While we have been heartened by the interest shown by many people in purchasing the Bulletin, we must confess that we have been chagrined by the many checks, money orders, and currency which we have been receiving. We must reiterate that the Veterans Administration *does not sell* the Bulletin of Prosthetics Research.

This publication, like other Government publications, is sold by the Superintendent of Documents. Checks or money orders must be made payable to the Superintendent of Documents and sent to:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

We hope that you will find this present issue interesting and helpful.

CONTENTS

	Page
Editorial—Unity in Diversity—E. F. Murphy	1
Amputation—K. Jansen	5
Immediate Post-Surgical Prosthetic Fitting—Prosthetic Research Study Report, May 1–September 30, 1965—E. M. Burgess, R. L. Romano, and J. E. Traub	42
