**CONTENTS**

---

**Scientific/Engineering Articles**

- 107** Metabolic responses to arm ergometry and functional neuromuscular stimulation  
*Bennett G. Edwards, PhD, RKT, and E.B. Marsolais, MD, PhD*
- 115** Paraplegic pressure sore frequency versus circulation measurements  
*Leon Bennett, MAE, and Bok Y. Lee, MD*
- 127** Factors affecting seat contour characteristics  
*Stephen Sprigle, PhD; Kao-Chi Chung, PhD; Clifford E. Brubaker, PhD*
- 135** Reduction of sitting pressures with custom contoured cushions  
*Stephen Sprigle, PhD; Kao-Chi Chung, PhD; Clifford E. Brubaker, PhD*
- 141** The recovery characteristics of soft tissues following repeated loading  
*D.L. Bader, PhD*
- 151** A systems approach to the modeling of racing wheelchair propulsion (*A Technical Note*)  
*Rory A. Cooper, PhD*
- 163** Wheelchair batteries II: Capacity, sizing, and life  
*James J. Kauzlarich, PhD*
- 

**Departments**

- 171** Abstracts of Recent Literature  
*Joan E. Edelstein, PT; Jerome D. Schein, PhD*
- 183** Book Reviews  
*Dudley S. Childress, PhD; Jerome D. Schein, PhD*
- 187** Publications of Interest  
*Beryl M. Benjers, PhD*
- 211** Calendar of Events  
*Beryl M. Benjers, PhD*
- 

**PLEASE NOTE**

Beginning this year (1990), the contents, excluding front matter, of the *Journal of Rehabilitation Research and Development* is paginated by volume, rather than by issue. Consecutive page numbering begins with the articles and goes through the Calendar of Events of each quarterly issue. Page numbers are indicated on the spine of the cover.
