## CONTENTS

- vii Guest Editorial  
*Jerome D. Schein, PhD*
- ix Clinical Relevance for the Veteran: Summaries of Scientific/Technical Articles

---

### Scientific/Technical Articles

- 355 An equivalent input noise level criterion for hearing aids  
*John H. Macrae, PhD and Harvey Dillon, PhD*
- 363 Gain, frequency response, and maximum output requirements for hearing aids  
*John H. Macrae, PhD and Harvey Dillon, PhD*
- 377 Comparative effectiveness of videothermography, contact thermography, and infrared beam thermography for scanning relative skin temperature  
*Richard A. Sherman, PhD; Allyn L. Woerman, MMSc, PT; Kent W. Karstetter, DPM*
- 387 Obesity and metabolic disorders in adults with lower limb amputation  
*Sergey F. Kurdibaylo, MD*
- 395 Relationships of the vibromyogram to the surface electromyogram of the human rectus femoris muscle during voluntary isometric contraction  
*Yuan-ting Zhang, PhD; Cyril B. Frank, MD; Rangaraj M. Rangayyan, PhD; Gordon D. Bell, MD*
- 404 Factors associated with life satisfaction among a sample of persons with neurotrauma  
*Lee Warren, MA; J. Michael Wrigley, PhD; William C. Yoels, PhD; Philip R. Fine, PhD*
- 409 Chair rise strategy in the functionally impaired elderly  
*Michael A. Hughes, MS and Margaret L. Schenkman, PhD, PT*

---

### Clinical Report

- 413 The Obstacle Course: A Tool for the Assessment of Functional Balance and Mobility in the Elderly  
*Kevin M. Means, MD*

---

### Departments

- 430 Abstracts of Recent Literature  
*Joan E. Edelstein, MA, PT*
- 440 Book Review  
*Mary M. Rodgers, PhD, PT*
- 441 Publications of Interest
- 455 Calendar of Events
